Waste Management Awareness Program

To:

All Students, Faculty and Non- Teaching Staff

Subject: Campaign for Awareness on Waste Management

As a responsible citizen, it is our duty to maintain the premises clean and ensure proper management of waste generated in the campus. In this regard, the management has decided to announce the launch of Waste Management Awareness Campaign, aimed at promoting responsible waste management practices in and around the campus.

As we all committed to sustainability, it is necessary that we take effective steps to reduce impact generated by untreated waste and contribute to cleaner and safer planet.

The Campaign aims to:

To bring awareness on the importance of proper waste disposal and recycling of non-biodegradable waste.

Report

We took up the activity of enrichment of ground water in a scientific manner and took measures to create awareness in the society for proper management of water during monsoon. Our college has a vast ground area with surplus plantation in and around. We work with the vision of living with nature creating new frontiers of knowledge among students to safeguard the environment we live in. We regularly organize events to educate students and also nearby villagers of social responsibilities with regards to saving water and keeping the surroundings clean and green. We are surrounded by vast open fields and residential area of Ankushapur village. The population is approximately of 7,645 people residing in about 2,764 houses. Our campus is located amidst open fields with lush greenery in around. The Green Council of Mahendrahills college has played a pivotal role in bringing in the awareness in the entire college to bring the concept of separating biodegradable waste and ensuring the waste to be managed through compost pi near the kitchen garden, monitors scrupulously by the department of Botany and the student volunteers. The responsive and collective investment of efforts have proved to bring optimistic results with respect to the waste management on the campus, alongside the non biodegradable waste management has been sent to the C-MET, where a batch of students have received the C-MET internship program (paid internship) to manage the e-waste and hazardous waste. The Laboratories of the college has also added a great deal of waste management responsibility by discarding the hazardous waste and expired chemicals through proper procedure as directed by the respective councils for laboratory management. Other than the waste management in the laboratories, the students have been initiated to bring in the measures of medical waste management by the Health Supervisor on the campus, whose efforts were equally noted in bringing safe disposal of the biomedical waste. Additionally, the sanitary napkin disposal is been made safe and clear with sanitary pad incinerators, which is the key step in bringing up waste management, suatinable and safe in the campus.

To

All students, Faculty and Staff

Sub: Awareness about clean and green to Ankushapur Villagers

---Reg

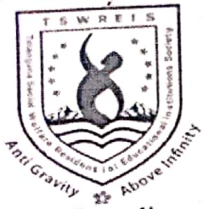

It is informed to all students, Teaching Faculty and Non- teaching staff that we are organizing an awareness camp at Ankushapur Village regarding cleanliness in the village.

The main aim of the camp is

- To interact with villagers, educate them about the importance of maintaining cleanliness in village.
- Motivate them to take up Swatch Bharat campaign initiated by our prime minister
- Encourage them to plant trees in whole village to ensure green surroundings
- Educate them about how maintaining cleanliness and green environment purifies air leading to healthier lives

It is instructed to each and every one to participate actively and be a part in bringing a positive change among villagers.

REPORT

Students and faculty of have initiated the cleaning campaign in the streets of adopted village Ankushapur, village official like sarpanch, secretary and women members were also taken part in the cleaning program. Students educated villagers on the responsibility of keeping village premises clean and neat that's is the inspiration given by Gandhi Ji and the moment driven by Prime Minister Shri. Narendra Modi ji on Swachh Bharath mission initiative. Students gave slogans on cleanliness and responsibilities of a citizen. All the members were actively participated in cleaning the high school and village premises of adopted village. The villagers have equally cooperated in the entire program and ensured to follow the theme behind conducting SWACHH Gurkul and SWACHH Village program for fostering the need to enlighten the villagers with respect to maintenance of health and hygiene on daily basis. The program has been facilitated with support of the gram Sarpanch, Upa Sarpanch, Asha Worker, GHMC Team members and Swachh Volunteers have contributed a lot to bring in the idea of SWACHH and its importance with respect to roads, Anganwadi's, panchayath office, libraries, houses, cattle sheds etc. This has resulted in positive response from the villagers and team members. Students were appreciated for their volunteer work and the program has brought in positive feedback with respect to the observation and feedback by the Sarpanch of the village.

Report on Plastic Reduction

The campus at TGWRD&PGC W Mahendrahills Ghatkesar has demonstrated a remarkable commitment to mitigating plastic waste through a series of proactive measures. The institution has enacted stringent policies banning single-use plastic items, while actively advocating for the use of reusable water bottles and bags among its student body and staff. Moreover, the campus has launched targeted awareness campaigns to educate its stakeholders on the detrimental effects of plastic pollution and the imperative need for sustainable alternatives. Such initiatives underscore the institution's unwavering dedication to fostering an environmentally conscious community and cultivating a culture that prioritizes responsible consumption and waste management.

Report on Energy Conservation

TGWRD&PGC W Mahendrahills Ghatkesar has taken on the important responsibility of promoting energy conservation and efficient consumption on campus. The institution has implemented various initiatives such as using energy-efficient lighting, installing solar panels, and conducting regular energy audits to identify areas for improvement. Additionally, students and staff are encouraged to practice energy-saving habits such as turning off lights and electronics when not in use. Through these efforts, the campus aims to reduce its carbon footprint, lower energy costs, and create a culture of sustainability among its members. The institution is committed to continuing its efforts towards energy conservation and consumption.
